EDUCATION

Manipal Institute of Technology

Bengaluru, India

B.Tech in Computer Science and Engineering (Cybersecurity)

2023 – 2027

- Third-year undergraduate student with focus on cybersecurity fundamentals and secure system design
- **Relevant Coursework:** Database Management Systems, Computer Networks, Operating Systems, Cybersecurity

Simran Public School

India

Class XII – Higher Secondary Education (92.6%)

2022

PROJECTS

AI-Driven IoT IDS

May 2026

Python, TensorFlow, Scikit-learn, Network Security

- Designed an anomaly-based IDS for resource-constrained IoT devices to detect malicious patterns.
- Utilized Random Forest classification on Bot-IoT datasets, achieving 98% accuracy.
- Optimized model inference latency to < 50ms for real-time edge threat prevention.

IoT Honeypot Network with AI Classification

Apr 2026

Python, Docker, Kubernetes, Threat Intelligence

- Engineered a distributed honeypot architecture to capture and analyze attacker TTPs.
- Implemented automated AI-driven attack classification for actionable threat intelligence.
- Integrated ELK stack for real-time visualization of IOCs and network trends.

Adaptive Rate Limiting for DDoS Mitigation

Feb 2026

Go, Redis, Nginx, Distributed Systems

- Architected a high-performance engine to protect API endpoints from volumetric L7 DDoS.
- Developed a dynamic feedback loop for adaptive traffic regulation based on load analysis.
- Reduced unauthorized traffic by 90% while maintaining sub-millisecond response latency.

TECHNICAL SKILLS

Security Tools & Platforms: Wireshark, Suricata IDS, TryHackMe, HackTheBox, Cisco Packet Tracer, Burp Suite (basic), Nmap, Autopsy, EnCase

Security Frameworks: NIST SP 800-63B, OWASP Top 10, MITRE ATT&CK, CIA Triad

Programming & Scripting: Python, C/C++, Java, JavaScript, Bash, SQL, HTML/CSS

Cybersecurity Domains: Vulnerability Assessment, Access Control, Authentication Mechanisms, Network Security, Secure Coding

Systems & Networking: Linux (Ubuntu, Kali), TCP/IP, DNS, HTTP/HTTPS, Port Scanning, Packet Analysis

Databases & Web: MySQL, PostgreSQL, HTML/CSS, React.js, Node.js, SQL Injection Prevention

CERTIFICATIONS

- [Google Cybersecurity Professional Certificate \(v2\)](#) 2026
- [Cloud Computing Fundamentals](#) 2026
- [Linux on IBM LinuxONE Intermediate](#) 2025
